EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Reece Nienstadt on 12/04/2006.

The application has been amended as follows:

Claim 43. (Currently Amended) A message display method for a portable information apparatus which comprises a main display, a sub-display provided independent of the main display and at a position where the sub-display is externally visible when the main display is in a closed position, and a jog device which generates a plurality of types of events, the method comprising:

detecting an operation of the jog device to (i) select an application program and (ii) start the selected application program in one of a power-off state, a sleeping state, and a main display off state; and

displaying on the sub-display, in the power-off state, sleeping state, or main display off state, a start menu comprising a name of the application program to be selected and started.

Allowable Subject Matter

Claims 32-38 and 43-47 are allowed.

Art Unit: 2174

The following is an examiner's statement of reasons for allowance: The prior art either alone or in combination doesn't teach the limitation of "a jog device that is operated to (i) selected an application program and (ii) start the selected application program in one of a power-off state, a sleeping state, and a main display off state; and display control means that display on the sub-display, in the power-off state, sleeping state, or main display off state, a start menu comprising a name of the application program to be selected and started" in combination with the other claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
